QUARTERLY REPORT NO. 2.

OCTOBER 1974

Title of Investigation:-

"CARTOGRAPHIC RESEARCH IN EREP PROGRAMME
FOR SMALL SCALE MAPPING".

N.A.S.A. H.Q. Proposal No. SR 9625.

No progress has been made in this investigation since the last quarterly report was submitted. It has been impractical to start without the 4x enlargements of the S.190A Multi-spectral Camera photography. These have been received during the last week and the preliminary work is now about to commence.

It is anticipated that this investigation will have been completed by the end of January 1975.

J.D. Leatherdale.
Co-Investigator.

11th October, 1974.
